1. A two to three kilometer one-track rail line has been built north of Eberswalde. The purpose of this construction is to eliminate the necessity, at Eberswalde Station, of switching locomotives which come from the direction of Freienwalde and go on in the direction of Stralsund.
2. The construction is being done by VVB Bau-Union* and the Huth construction firm.* Huth is under custodian administration.
3. Employees on the project stated that a connecting track between Eberswalde and Loewenberg is planned, but that construction has not yet started. Surveying of the terrain has begun.
4. The following sketch illustrates construction already completed:
